

The Latest in Furniture

Light-colored walls, dainty drapery and ivory furniture are the predominant features of the modern sleeping-chamber.

The suite shown in our window carries out this idea perfectly. It is made of the choicest solid maple, treated to represent exactly old ivory.

The style is distinctly straight-line with pleasing proportions, the plainness being relieved by grooved ornamentations, which set off in a striking way the antique effect of the old ivory finish.

The cane insets give decided character to the suite. This furniture never needs polishing. It has a hard, elastic finish, readily cleansed with a soft, moist cloth.

The suite comprises the following pieces:

A FULL-SIZE BED, DRESSER, CHIFFONETTE, VANITY DRESSER, AND BENCH-ROCKER AND SOMNOE.

REGAINS APPETITE WHEN SHE TAKES ADVICE OF COUSIN

Connecticut Woman Strongly Recommends Dr. Williams' Pink Pills for Stomach Trouble.

"The advice of a cousin, given after many medicines had failed to check my loss of strength, has resulted in my restoration to health," says Mrs. H. A. Hickman of No. 76 Jackson street, Ansonia, Conn. "I had been ill for five years and nothing helped me. I was steadily losing strength and daily becoming more nervous. Everything I ate soured on my stomach, and I had severe indigestion pains, which deprived me of many hours of sleep. My blood was very thin and my color was poor. My heart palpitated wildly at times, and I was almost too weak to get about."

"I was urged by my cousin, I finally procured a box of Dr. Williams' Pink Pills and began the treatment. It was not a great while before my stomach became much stronger and I could eat without worrying about the distress which formerly took the pills, was sure to result. My appetite improved, and now I sleep soundly, am refreshed in the morning, and feel like doing my work. My heart no longer palpitates as it did, and my blood is much richer. To-day I recommend Dr. Williams' Pink Pills as strongly as my cousin did, and I have great faith in them as a tonic remedy."

Your own druggist can supply you with Dr. Williams' Pink Pills, or you can order direct from the Dr. Williams' Medicine Co., Schenectady, N. Y., enclosing fifty cents for one box or \$2.50 for six boxes. Write to-day for the free booklet, "What to Eat and How to Eat."—Adv.

AMERICANS SELLING AUTOS IN GERMANY

Germans Claim They Are Smuggling the Cars Into Germany to Avoid the German Law Against Importation.

Berlin, July 28 (By the Associated Press)—The Deutsch-Zeitung claims that the Americans in the occupied territory are attempting to sell their own and the balance of the army's huge stock of automobiles by smuggling them into Germany through the occupied territory to avoid the German law against the importation of manufactured products.

The newspapers say that if the Americans succeed in selling a quantity it will ruin the German automobile industry, although in the same paragraph it belittles the quality of American cars and warns Germans that they are liable to prosecution if they buy them.

Rutland's Desire for a Normal School.

If the state board of education should decide upon the site of the late house of correction in Rutland as the central Vermont normal school, the judgment of that body will stand approved by the great majority of the taxpayers of the state without question. No better point geographically could be selected and, being at the center of the greatest population in the state, the school would be an institution of maximum usefulness. The support that this community would give a normal school is assured. That goes without question. The property transformed into an educational insti-

tution of rank higher than a high school, would be a distinct asset to Rutland. By and large, it would doubtless be of as great if not greater material advantage than a manufacturing plant. And the destiny of the institution seems to be to become one of the two. It is sincerely to be hoped that the judgment of the state board of education will lead it to establish this institution at this point.—Rutland News.
